Professional Summary

Full Stack Software Engineer with experience building AI-powered, real-time, and cloud applications using Node.js, Next.js, TypeScript, and AWS. Delivered RAG, OTT, advertising, e-commerce, CRMs and workflow systems supporting up to 10,000+ daily active users.

Technologies

Languages: JavaScript, TypeScript, Python
Frameworks / Libraries: Node.js, Express.js, React.js, Next.js, Tailwind CSS
AI / LLM: Claude API, RAG, Embeddings, Vector Search, Prompt Engineering, Streaming Responses, Tavus AI
Databases: MongoDB, MySQL
Cloud / Tools: AWS, Azure, Firebase (FCM), Stripe, Webhooks, Git

Experience

Software Engineer, OnGraph Technologies, Noida **November 2025 – Present**

- Owned end-to-end delivery of AI-enabled, OTT, advertising, payment, and admin features across web and mobile products.
- Designed and shipped live TV capabilities, including parental controls, content restrictions, and scheduled playback.
- Architected monetization workflows for ad operations, subscriptions, region-based pricing, and push notifications.
- Built and maintained admin and content-management systems for analytics, user management, and ticketing, supporting 10,000+ daily active users.

Full Stack Developer, Prem Industries India Limited, Greater Noida **January 2024-November 2025**

- Delivered 5+ MERN and Next.js applications serving 1,000+ internal users and streamlining business workflows.
- Owned development of an image-tracking system processing 50,000+ user-uploaded images monthly with real-time operational updates.
- Developed e-commerce and internal applications with secure REST APIs, React interfaces, workflow automation, and AWS deployment using EC2, S3, and Amplify.

Projects

Psych-GPT – AI Clinical Interview Assistant

- Built Psych-GPT, an AI-powered clinical interview assistant by integrating Tavus AI video avatars and clinical conversation workflows.
- Developed real-time interview sessions and clinician-review summaries to support medical-history collection before consultations.

NABTT (OTT Platform)

- Built real-time analytics, event tracking, dynamic ad insertion, and video-level ad mapping for OTT content workflows.
- Implemented RBAC, Stripe subscriptions with region-based pricing and webhook validation, and Firebase FCM notifications.

store.prempackaging.com (E-commerce Platform)

- Built a full-stack e-commerce platform and custom CMS for catalog, inventory, order, and fulfilment management.
- Developed Node.js/Express APIs and a React admin dashboard; integrated Razorpay webhooks and deployed on AWS EC2 and Amplify.

Education

Inderprastha Engineering College **November 2020 – June 2024**
Bachelor of Technology in Information Technology CGPA: 7.56

Honors & Awards

1st Place, Webkriti Front-End Design Competition (2023) (View Certificate)
Built a responsive React and Tailwind CSS web application under strict time constraints.
